MAGNIFICENCE OF SPANISH MARVELS

Spanish artistry is known both for its subtle elegance and exuberant extravagance, two opposites that fuse into one spirit in the Spanish collection.

Spain's art has never known boundaries, be it the influences and works of Goya or Picasso. Similarly its glasswork borrowed from Czech and Bohemian influences, and turned it into a distinctive art form. The techniques used to craft Bohemian glass into pieces of art originated in Bohemia, hence the name.

With flawless finish and excellent radiance Bohemian glassmaking is known for its intricate designs and harmonious colour compositions. The oldest glassmaking traditions come together with the most advanced and

innovative technology to create the thought provoking pieces of the Spanish collection.

Inspired by Sparkling stars, charming flowers and grand castles, the very poetry of the Spanish soul has been teased to life by skilled artisans into chandeliers – bold, beautiful and bewitching.

THE BEAUTY AND RESILIENCE OF ITALIAN ARTISTRY

Craftsmanship perfected since the Renaissance, and beauty inspired by visions of architectural marvels comes together in Murano glass chandeliers in the Italian Collection.

Each piece is an artistic marvel blown to life painstakingly by traditional craftsman from Murano – the quaint little Italian islands

synonymous with magnificent Murano glassmaking. It was on these islands that masterpieces from the renowned craftsmen Giuseppe Lorenzo Briati and Angelo Barovier took shape. From this same legacy of grandeur we bring you the new awe-inspiring TISVA collection.

Crafted in the Murrine technique, which involves layering of hot liquid glass to form delicate compositions, the Italian Collection captivates, entices and teases one to wonder at the mysteries of its craftsmanship and flawless beauty.

The chandeliers carry the very spirit of the floating city, as they hover like dreams above us. Alluring, beautiful and majestic.
