

## New Products

Inspired by different elements of nature, our Lumina collection consists of artfully crafted lighting sculptures to light up your space. The use of handmade banana fibre paper creates soft illumination and the subtle textures bring poetic shadows to a room. We used banana fibre paper that was handmade in our workshop and hand assembled by our artisanal light crafters, making these lights more than just lights, but a unique work of art.

### Inspired by Nature

This collection draws inspiration from different elements of nature. These versatile pieces can shine whether clustered above the dining table or standing alone in a reading nook.

## Care Instructions

We manufacture our own paper from natural fibres. With proper care, the paper lights could last for as long as 10 or more years. Here are a few tips on how to look after them.

- Frequently dust with a feather duster or vacuum clean on blow mode.
- Avoid exposure to moisture and rain.
- Use the recommended type and wattage of bulb to avoid burn marks on the paper.
- In humid conditions, use the lamp on a regular basis, so the paper remains dry.
- The paper we use is made from natural fibres, so discolouration is a natural aging process (like old books). Proper maintenance could slow the process down.
- Handle with care when installing and dusting. Keep away from children and pets.
- We recommend paper lights for indoor use only.

THANK YOU
