DESIGN YOUR PROJECT

P:LINE

An extra-ordinary Project Line up

“We Execute Your Thoughts”

P:Line project is basically name given to works in solution based concept for Architectural projects.

Qualified, Creative and Experienced team working on P:Line projects.

As per your requirements Team will explain the product history of design to latest trend.

We want you to be an active participant in the light design process with our “honest, open, flexible, realistic and decisive” advice.

We can oversee your project from beginning to end with expert supervision.

Main principle here to translate your needs into a functional and beautiful lighting structure that also suits the site.

We have our Inhouse designing team as well support by Qualified Design Team from under mention brand.

PRISHA

ILLUMINATION

PRISHA ILLUMINATION is about precision. In fact, it embraces precision as a given, while building in flexibility.

With over 16 years of experience in lighting industry especially retailing, the expertise is brought in as feedback to enable design change.

Interaction with client and end users, consultants, architects & designers, the PRISHA ILLUMINATION range is an effort to build a formidable set of lighting fixtures that answer today's lighting needs.

Immaculately Coated, well designed aluminum heat sinks for heat dissipation, acceptable CRI standards especially for retail, and most importantly 'flexibility', are some of the aspects that PRISHA ILLUMINATION has taken care of while working at the fixture designs through quality making.

Considering LED has stormed the market in form of energy efficiency, lamps and fixtures made with the environment in mind, with optimum efficacy, is of utmost importance for PRISHA ILLUMINATION.
